## Mechanical Manager

### Description

We are seeking a highly experienced and dynamic Mechanical Manager to lead the Mechanical Department at our continuous processing plant. The ideal candidate will bring strong technical expertise, proven leadership, and a track record of managing large teams in industrial environments.

### Responsibilities

Lead and manage the Mechanical Department to ensure safe, reliable, and efficient plant operations.

Oversee preventive and predictive maintenance programs to minimize downtime.

Develop and implement long-term strategies for equipment reliability and performance.

Manage budgets, procurement, and departmental KPIs.

Mentor and develop mechanical engineering and maintenance teams.

Ensure compliance with safety, environmental, and regulatory standards.

### Qualifications

Bachelor's Degree (B.E.) in Mechanical Engineering (Master's preferred).

### Experience

15–20 years of experience in a continuous processing industry (Chemical, Cement, Oil Refining, or similar).

Minimum 8–10 years in a senior leadership role as Head of Mechanical Department.

Excellent leadership, decision-making, and problem-solving skills.
