Project Manager – Contractual

Description

We are looking for a highly skilled and experienced Project Manager (Mechanical) to lead and oversee a specific industrial project at our continuous processing plant. This is a contractual role with an expected duration of 10 months, ending upon successful completion of the project.

Responsibilities

Lead the planning, execution, and delivery of the assigned industrial project.

Manage budgets, resources, timelines, and contractors/vendors to ensure smooth project execution.

Monitor project progress, risks, and implement corrective measures when necessary.

Ensure adherence to technical standards, safety protocols, and regulatory requirements.

Collaborate with cross-functional teams to achieve project objectives within time and budget.

Provide regular updates and reports to senior management.

Qualifications

Bachelor's Degree (B.E.) in Mechanical Engineering.

Experience

Minimum 15 years of experience in project management within a continuous processing industry (Chemical, Cement, Oil Refining, or similar).

Proven track record of successfully managing large-scale industrial projects.

Strong leadership, communication, and decision-making skills.
