National Petrocarbon Pvt Ltd.

National Petrocarbon (PVT) Ltd (NPC) stands out as the first and only manufacturing unit in Pakistan with an estimated installed capacity of 70,000 metric tons per annum. Carbon Black is an essential raw material for the Tyre and Rubber Industry. NPC commenced commercial operations in 1980 and has since consistently met the demands of Pakistan's Rubber and Tyre industry. In 1996, the company was privatized and acquired by the Al-Hamza Group of Companies. Following the acquisition, significant modernization and refurbishment (BMR) of the plant was undertaken to enhance production capabilities.

During a 30 year period, since its inception, the organization has developed expertise in product development and manufacturing due to which the demand of all major grades used by the Tyre & Rubber industry of Pakistan is being met fully. The industry competes with Carbon Black manufactures globally by exporting the product worldwide under the free-market economy conditions as our technical team can meet all possible requirements of the customers.

Al-Hamza Trading & Ship Breaking Company

With over five decades of experience, Al-Hamza Trading & Ship-breaking Company is a major player in Pakistan's ship-breaking industry. We specialise in importing scrapped vessels ranging from 5,000 to 60,000 metric tons to our dedicated ship-breaking yard at Gadani, Baluchistan. Our operations focus on safe, efficient, and environmentally responsible ship recycling processes in accordance with Hong Kong convention.

Al-Hamza Steel Mills Pvt Ltd.

Al-Hamza Steel Mills (Pvt) Ltd is a steel re-rolling manufacturing unit producing Tor Bars for construction and infrastructure. Since its inception in 2014, Al-Hamza Steel Mills has captured a significant share of the steel market in Pakistan. Our modern manufacturing facilities and adherence to international standards ensure the production of Grade G-40 steel in sizes ranging from 10 mm to 25 mm, delivering durable and reliable steel solutions.

Al-Hamza Minerals Company

A leading exporter of Chrome Ore (Lumpy) from Pakistan to China since 1973. Al-Hamza Minerals Company consistently exports 20,000 metric tons of chrome ore on a yearly basis. We ensure top-quality material which is sourced from the finest deposits, catering to the specific needs of our clients in the stainless steel, refractory and ferrochrome industries.

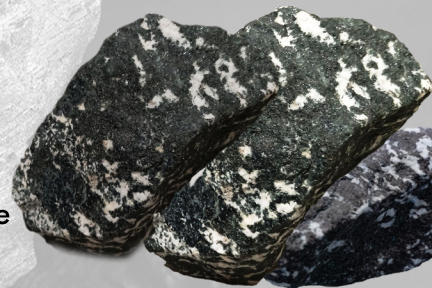

We are now keen to expand our reach in other parts of the world, offering our customers a consistent quality that aligns perfectly with their industrial requirements.

Quality Assurance

SGS testing is performed for every Cargo sent

Our Products

Our products include two main categories of metallurgical grade and refractory chromite; lumpy and concentrate forms.

Scheme Code	Description
CR_T	Chromium Oxide Cr2O3
CR_FE	Iron as Fe2O3
CR_CR_FE	Cr:Fe
CR_SI	Silica as SiO2
CR_AL	Aluminum as Al2O3
CR_MG	Mg as MgO
CR_P	Phosphorous as P
CR_S	Sulphur as S
